SUJAL MALHOTRA

+918307592137 | Sujal Malhotra | malhotrasujal98@gmail.com | Sujal-SM

Technical Skills

- **Programming**: Python, SQL, Boto3, Jira
- **Operating Systems**: Linux (RHEL)
- **Cloud Platforms**: AWS (EKS, EC2, S3, IAM, VPC, ELB), Oracle Cloud Infrastructure (OCI)
- **Containers & Orchestration**: Docker, Kubernetes (K8s), Helm, Kubectl
- **Infrastructure as Code**: Terraform, Ansible
- **CI/CD & GitOps**: GitLab CI, GitHub Actions, ArgoCD, Git, GitHub
- **Security & Networking**: SSL/TLS, NGINX, SonarQube, Trivy, OWASP, TCP/IP, DNS, HTTP/HTTPS, Load Balancing, VPCs, Subnets, Security Groups
- **Monitoring & Observability**: Prometheus, Grafana
- **AI & Automation**: Antigravity, Cursor, Claude (Anthropic), AI-Assisted DevOps Automation

Work Experience

OCI Intern – Global Trend **June 2026 - Sept 2026**

Engineered and managed cloud infrastructure on Oracle Cloud Infrastructure (OCI), Deployed a secure enterprise mail server using iRedMail with iRedAdmin Pro, featuring multi-domain hosting, mailbox administration, email aliases, domain management, SMTP services, DNS, SSL/TLS, VCNs, NSGs, and secure networking. Deployed containerized applications on Kubernetes using Docker and declarative manifests, optimized CI/CD pipelines, performed OCI cloud cost optimization, and resolved production infrastructure issues to deliver secure, scalable, and highly available backend platforms.

Publications

Research Paper: Value-Latency in AI-Driven Organizations: The Hidden Delay Between Algorithmic Decisions and Human Well-Being – A Human Sustainability Perspective.

Projects

- **Retail Store Sample App** – Deployed microservices across AWS EKS (Auto Mode) and Kind clusters using GitOps. Automated infrastructure with Terraform, CI/CD with GitHub Actions and ArgoCD, integrated Prometheus–Grafana for monitoring, and added email alerts for deployment failures.
  Tech Stack: Java, Go, Node.js, AWS EKS, Kind, Terraform,SonarQube, Trivy, OWASP, ArgoCD, GitHub Actions, Docker, Kubernetes, NGINX, Prometheus, Grafana
- **Autonomous-Agentic-AI-Framework** - A production-grade multi-agent AI research assistant that automates planning, source retrieval, validation, evidence extraction, and report synthesis to generate structured, citation-backed research reports. Built with CrewAI, Python, OpenAI, Exa, Tavily, and modular agent pipelines for reliable, iterative deep research.
- **Dr. Krishi - KrishiAI** - An AI-powered agricultural advisory platform enabling farmers to detect crop diseases, predict risks, and receive expert treatment through image, text, or voice inputs. Combines computer vision, CNN + XGBoost, GPT-4o Vision, RAG pipelines, and conversational AI for real-time diagnosis, forecasting, multilingual advisory, and automated agronomist escalation, built on scalable cloud-native infrastructure with FastAPI, Docker, and Kubernetes.

Education

- ***Vivekananda Institute of Professional Studies - Technical Campus*** **2024 - 2027**
  Bachelor of Technology (B.Tech) in Computer Science and Engineering — CGPA: 9.2/10
- ***Diploma of Higher Education, Electronics and Communication Engineering*** **2024**
  Delhi Skill and Entrepreneurship University, DSEU Pusa Campus — 93% (2024)

Certificates

- Oracle Database@AWS Certified Architect Professional – Oracle LINK
  - Score Report LINK
- Oracle Cloud Infrastructure Certified DevOps Professional– Oracle LINK
  - Score Report LINK
- Machine Learning Specialization – Coursera LINK
